ATTENTION DEPOT OPERATORS AND STAFF:

On October 19, 2015 the Beverage Container Management Board (BCMB) sent out a Depot Notification regarding non-dairy liquid coffee creamers being approved into the beverage container recycling system. The BCMB has been receiving public complaints claiming that some depots are still not accepting all non-dairy liquid coffee creamers containers for refund. This notification is a reminder that as of November 1, 2015 these non-dairy liquid coffee creamers are to be accepted by Alberta Depots. Please take some time to review with your staff and ensure they are accepting these containers properly.

Please note that these products are registered in multiple flavors and several different sized containers. (examples of acceptable non-dairy liquid coffee creamer containers below)

Please be advised that powdered coffee creamer containers will not carry a deposit and are not to be refunded at Alberta Depots.

BEVERAGE CONTAINER MANAGEMENT BOARD

If you have any questions, please direct them to the Beverage Container Management Board (BCMB) at 780-424-3193 or 1-888-424-7671.
