4. PURPOSE OF HANDLING COMMISSIONS

4.1 Purposes for which Handling Commissions are to be calculated include:

- 4.1.1 to provide sufficient funds to enable Depots as a group to recover prudently-incurred costs and expenses and to earn a fair pre-tax return;
- 4.1.2 to maintain a viable Depot industry;
- 4.1.3 to minimize the net cost of handling commissions on Manufacturers and end-use consumers and any cross-subsidization between different container streams;
- 4.1.4 to share the benefits from more efficient handling or processing technologies implemented through the co-operation of Manufacturers and Depots, or from significant additions of new registered containers or from significant increases in volumes of certain types of existing containers equitably between the Manufacturers and the Depots;
- 4.1.5 to support the accessibility of Albertans to Depots in rural areas;
- 4.1.6 to recognize that cost per container is higher for Depots that process lower container volumes than for depots that process higher container volumes; and
- 4.1.7 to maximize beverage container return rates.

4.2 The BCMB shall set a single Handling Commission for each Material Stream.

4.3 In addition to the Handling Commission set for each Material Stream, every Depot other than a

Class D Depot shall be paid a Depot Viability Handling Commission of 1.5 cents for each of the first 1.5 million containers shipped to the CSA by that Depot in every calendar year commencing January 1, 2022, excepting refillable containers and regardless of whether there is a change in effective control of the Depot or a change of Permit Holder at the Depot location.

5. CHANGES TO HANDLING COMMISSIONS

- 5.1 The BCMB may only set or change a Handling Commission in accordance with this By-law.
- 5.2 The BCMB may set an interim Handling Commission for a new container stream in accordance with this By-Law.
- 5.3 Other than interim Handling Commissions, Handling Commissions may only be set or changed by motion of the Board carried by a majority of 2/3 of the Directors following a procedure set out in this By-law, unless otherwise agreed by all potential Interested Parties.
- 5.4 The Board may refer the setting of Handling Commissions to an Arbitration Panel in accordance with this By-law.

6. INTERIM HANDLING COMMISSIONS

- 6.1 The following procedure applies to setting an Interim Handling Commission for a new container stream:
 - 6.1.1 Following a request to the BCMB from a Manufacturer for a new container stream, the BCMB shall request that the Data Collection Agent collect relevant information from Manufacturers, Depots, the Collection System Agent and Collection Service Providers as applicable with respect to the new container stream. The Data Collection Agent shall obtain the necessary information in a confidential manner protecting the proprietary information of the Manufacturers and the Depots;
 - 6.1.2 The BCMB shall request that the Data Collection Agent provide a report recommending an Interim Handling Commission;
 - 6.1.3 Where the Data Collection Agent is of the opinion that it is appropriate for an Interim Handling Commission to be set without a Handling Commission Review the Data Collection Agent shall provide a report setting out the basis for that opinion and recommending an Interim Handling Commission;
 - 6.1.4 Where the Data Collection Agent is of the opinion that a Handling Commission Review is required, the Data Collection Agent shall provide a report setting out the basis for that opinion;
 - 6.1.5 Where the Data Collection Agent provides a report recommending an Interim Handling Commission to the BCMB, the BCMB shall provide a copy of that report to the Manufacturer who has requested the new container stream and to the Alberta

Bottle Depot Association, the Collection System Agent and any affected Collection Service Providers, who may provide comments to the BCMB with respect to the report; and

6.1.6 An Interim Handling Commission may be set by the BCMB based on the report from the Data Collection Agent and any comments received with respect to the report.

6.2 The Interim Handling Commission shall apply to the new container stream effective immediately and shall remain in effect until the next Handling Commission Review unless the Board sets a new Interim Handling Commission.

6.3 If any party directly affected by the interim Handling Commission is not satisfied with the Interim Handling Commission, that party may apply to the Board to request that the Board review the Interim Handling Commission.

6.4 If no party applies to the Board for a review of the Interim Handling Commission, the Board shall be informed of the Interim Handling Commission at the next regularly scheduled Board Meeting.

7. HANDLING COMMISSION REVIEWS

7.1 The Board shall initiate a Handling Commission Review in any of the following circumstances:

7.1.2 Six years have passed since the last Handling Commission Review.

7.2 The Board may initiate a Handling Commission Review if there has been a systemic change to the beverage container system that in the opinion of the Board warrants a Handling Commission Review.

7.3 For the purposes of section 7.2, a change in the average cost per container that is more than +/- 5% from the average cost per container established in accordance with the last Handling Commission Review may be considered evidence of a systemic change to the beverage container system.

7.4 The Board shall not direct a Handling Commission Review more than once within a 12-month period.

7.5 The Board shall adjust Handling Commissions on an annual basis between Handling Commission Reviews in accordance with Part 13 of this By-law.

- 13.4 If, after making any changes for any calculation errors, the DCA Annual Update Report prepared by the Data Collection Agent determines the average Handling Commission which, when compared to the average Handling Commission currently in effect, differ in amount by more than +/- 0.3 of 1% , the Board shall approve the updated Handling Commissions effective as of May 1 of the year following the DCA Annual Update Report to remain in effect until new Handling Commissions are approved in accordance with this By-law.

-

 - 13.5.5 The Data Collection Agent will calculate both the average Handling Commission for the DCA Annual Update Report and the average Handling Commission currently in effect by dividing the Revenue Requirement by the reported volume of containers for that period;
 - 13.5.6 The difference of the average Handling Commission associated with the DCA Annual Update Report and the average Handling Commission currently in effect will determine if the average Handling Commission has changed more than +/-0.3 of 1%.
- 13.6 If, after following the methodology in section 13.5 and if after making any changes for any calculation errors, the DCA Annual Update Report prepared by the Data Collection Agent determines the average Handling Commission which, when compared to the average Handling Commission currently in effect, does not differ in amount by more than +/- 0.3 of 1% no adjustment shall be made to the existing Handling Commissions.
- 13.7 Within 30 days of receipt of the second DCA Annual Update Report following a Handling Commission Review, the Interested Parties provided with that report shall advise the BCMB whether they agree to extend the time for the next Handling Commission Review for a further two-year period.
- 13.8 In the event that the Interested Parties unanimously agree to a two-year extension period in accordance with section 13.7, the procedure set out in sections 13.1 to 13.7 shall apply to that two-year extension period, and to any following two-year extension periods unanimously agreed to by the Interested Parties in accordance with those sections, but the Interested Parties cannot

agree to more than two such two-year extension periods.

- 13.9 In each DCA Annual Update Report, the DCA shall determine the annual average Handling Commission and compare that amount to the annual average Handling Commission determined during the last Handling Commission Review. If the difference between the annual average Handling Commission in the DCA Annual Update Report and the annual average Handling Commission determined during the last Handling Commission Review is +/- 5%, the Board shall be advised for the purpose of determining whether or not a Handling Commission Review is required.
