

June 7, 2016

Attention depot operators and staff,

**RE: NON-ALCOHOLIC ISB PRODUCTS**

The Beverage Container Management Board would like to advise you of some new non-alcoholic beverages bottled in the 341 mL Industry Standard Bottle (ISB) that have been registered for sale in Alberta (pictures on page 2). This registration is effective June 6, 2016 so you will likely begin to see these bottles arrive at your Depot in the near future.

The non-alcoholic products are to be sorted and palletized the same as all other ISBs and shipped to BDL for refilling. The handling commission for the ISB is \$0.4645. The deposit refund provided to the customer by the Depot is \$0.10 as the containers are 0-1L in volume.

If you should have any questions, please contact the Beverage Container Management Board at 1-888-424-7671.
