Attention Depot operators and staff,

RE: BEVERAGE CONTAINER DATABASE NOW ONLINE

All beverage containers registered for sale or distribution in Alberta can now be found online in a new searchable database (screenshots on page 2). This database can be accessed using the following link - <http://portal.bcmb.ab.ca/Product>. Over 130,000 containers are currently registered for sale in the province. Registration ensures the container is recyclable and can be returned to a Depot for a refund of the deposit paid when purchased.

The following product information can be found in the database:

- brand/name
- flavour (if applicable)
- alcoholic or non-alcoholic
- container material (ie. glass, plastic, aluminum)
- container size
- UPC
- container codes for approved containers
- an image of the container (images are available for many, but not all containers – more will be added as they become available)
- container recycling fee (CRF)
- refundable deposit amount

If you have any questions regarding this database, please contact the Registrations Department at 1-888-424-7671.
