The BCMB Registrations Portal - <https://portal.bcmb.ab.ca/Product>, can be used to determine the size of any registered beverage container. We also suggest searching by the container brand name, should the UPC search not provide a result.

In addition to using the portal, the barcode scanner within the Depot App can be utilized to help identify these containers. This will allow you to scan the UPC code of any beverage container using your phone or enter the UPC number manually. The App can be downloaded through the Apple Store or Google Play Store by searching “Alberta Depot”.

Should you have any questions from the public in relation to registered beverage containers and their sizes, you may direct them to the Registrations Portal to look up a specific container or for general inquiries, direct them to contact the BCMB at [info@bcmb.ab.ca](mailto:info@bcmb.ab.ca). The Registration Portal link is: <https://portal.bcmb.ab.ca/Product>.
