**RE: Critical Worker Benefit Program: Follow-up**

---

Depot Owners/Operators:

This notice is a follow-up to the previous notice distributed on February 18, 2021 regarding the Government's Critical Worker Benefit Program.

The BCMB has been notified by several Depots that they applied for the benefit on behalf of their employees and were unfortunately advised that Depot employees do not qualify. BCMB Staff have attempted to contact the Program Staff at the Government to request information as to why they do not qualify, however we have not been provided any additional information.

The BCMB was hopeful that Depot employees would qualify for this benefit program. We apologize to those Owner/Operators who went through the effort of submitting applications only to have them rejected, but we thank you for your commitment to your staff.

Thank you,

BCMB Management
