RE: **Stainless Steel Beverage Containers**

Attention depot operators and staff,

Please be advised that a non-refillable stainless steel beverage container has been registered in the Alberta system. This means that the containers carry a deposit and are eligible for refund when returned to a depot by a customer. Below are pictures of the Original Magnum Cream Liqueur that has been registered.

Please note that these containers are to be **sorted into the Bi-Metal, 0-1L material sort (CRIS Code: 2006)** shipped to ABCRC. The ABCRC Material Sorting Guide has been updated with this information for future reference and can be found on the BCMB website at the link below, in the "Forms & Guides" tab:

<https://www.bcmb.ab.ca/depot-owners-operators/depot-logins-resources/>

Depot Resources

Click each blue tab to learn more about the resource and for access to that resource.

Click a document below to open it.
