RE: **Have Your Say on BCMB's 2027–2030 Regulatory Strategy**

Beverage Container Management Board (BCMB), Alberta's beverage container recycling system regulator, is beginning work on its 2027–2030 Regulatory Strategy and is seeking input from Alberta bottle depots through the survey below.

Every three years, BCMB Management works with its Board of Directors to establish the regulatory priorities and strategic direction that guide the organization's activities. As BCMB develops its 2027–2030 Regulatory Strategy, we want to ensure our approach reflects the realities, opportunities, and challenges facing Alberta's bottle depot network.

Your feedback will help inform BCMB's regulatory priorities for 2027–2030 and identify where regulatory approaches, requirements, or processes may need to adapt to better meet the needs of Alberta's beverage container recycling system.

All responses will be treated confidentially and reported in aggregate form. Individual responses will not be attributed to specific respondents.

The survey takes approximately 10–15 minutes to complete and will remain open until **Monday, August 31, 2026**.

We appreciate your input as BCMB develops its 2027–2030 Regulatory Strategy.
