To: Mary McPhail <mary@albertadepot.ca>

Hi Mary,

Thank you for letting me know.

In order to continue with the data request, please review the purchase confirmation below.

Please note that this PC only covers the custom tabulation for *Table: 20-10-0083-01 - Annual retail trade survey, summary statistics* (\$7,476.75 plus tax; CAS-1195647). A separate PC will be sent out for the second custom tabulation for *Table: 20-10-0077-01: Annual wholesale trade survey, financial estimates* (\$7,500 plus taxes; CAS-1197556).

To proceed, you will need to place an 'X' by the two lines under 'Client Confirmation' AND respond to this email with the statement: Approved, I agree to the cost, terms and conditions.

Please let me know if you have any questions.

This is not an invoice.

8/22/2025

Alberta Bottle Depot Association

Mary McPhail

Thank you for your interest in Statistics Canada's products and services.

The following is a Purchase Confirmation outlining the fixed costs for the product(s) and/or service(s) described below. Please refer to Appendix A for a description of each product. The requested product(s) and/or service(s) will be delivered by 10/21/2025 (MM-DD-YYYY) or within a week of the delivery date. You will be notified of any unexpected production delays.

Please note that this delivery date will be valid if a confirmation is received within the next two business days. Otherwise, the date will be reviewed and adjusted based on our capacity at the time of acceptance of this Purchase Confirmation.

Catalogue Number	Amount
P0056081	\$7,476.75
<hr/>	
Order Discounts*	\$0.00
Order Subtotal	\$7,476.75
GST	\$373.84
PST	\$0.00
HST	\$0.00
Order Total	\$7,850.59

*Note: Statistics Canada will defray costs arising from the work described in Appendix A in the amount of \$0.00, which is included in the Order Discounts.

If you accept the details of this Purchase Confirmation, please review the general [Terms and Conditions](#) that will apply to your order and return your confirmation to Statistics Canada representative via e-mail. Once reviewed, we will treat this as confirmation and proceed with your order. By accepting this Purchase Confirmation, you are confirming that you have legal capacity to enter into an agreement on behalf of your organization.

Paola Arabit

Email: paola.arabit@statcan.gc.ca

Client Confirmation

I have reviewed and accepted the [Terms and Conditions](#) and Use of Administrative Data on the following page of this Purchase Confirmation.

I accept the products and/or services and their prices outlined in this Purchase Confirmation.

Use of Administrative Data

Paragraph 3(a) of *Statistics Act* R.S.C. 1985 chapter S-19 (the “Act”) mandates Statistics Canada to collect, compile, analyse, abstract and publish statistical information relating to the commercial, industrial, financial, social, economic and general activities and condition of the people;

Paragraph 3(b) of the Act mandates Statistics Canada to collaborate with departments of government, in the collection, compilation and publication of statistical information, including statistics derived from the activities of those departments;

Administrative Data provided to Statistics Canada pursuant to this Purchase Confirmation will be subject to the confidentiality provisions of subsection 17(1) of the *Statistics Act* and subsection 24(1) of the *Access to Information Act*;

Return or destruction of Administrative Data – *Administrative Data* pursuant to this Purchase Confirmation will be returned and or destroyed after completion of the work.

-

Definition “Administrative Data” means all forms of information contained in any documents or records that are maintained in any government department or in any municipal office, corporation, business or organization and individuals, which are provided to Statistics Canada in respect to its mandate.

Statistics Canada will use the Administrative Data solely for the work described in this Purchase Confirmation.

Should you have any questions regarding this Purchase Confirmation, please contact your Statistics Canada representative up above with the following reference number: ORD-13770-D2S2K8.

Hi Mary,

I hope you're doing well.

I finally heard back from the Wholesale division regarding your request, and they confirmed that they are able to provide the requested data extraction from [Table: 20-10-0077-01: Annual wholesale trade survey, financial estimates](#). Please review the specifications below:

Scope of Customization:

- Filter to include only companies with a **positive operating margin**
- Data limited to **Canada** at the national level
- Reference years: **2021, 2022 and 2023**
- Variables to include:
 - Total operating revenue
 - Cost of goods sold
 - Total operating expenses

Cost Estimate: \$7,500 + applicable taxes

Delivery Timeline: On or before **October 10, 2025**

Format: Excel or CSV (please confirm your preference)

Important Note on Confidentiality:

Due to confidentiality requirements, data for some profitable industries or company groupings may be suppressed to protect individual respondents. *Suppression can only be determined during the detailed analysis phase.*

Please let me know if you would like to proceed with the order. If you would like to go ahead, I can send you the Purchase Confirmations for both tables. Lastly, Retail did advise that delivery by October 14th is feasible if confirmation is received this week.

Kind regards,

Paola

Subject: Re: Statistics Canada - Retail and Wholesale Custom Request - CAS-1195647 | CAS-1197556

Hello again Paolo,

I will be away in October through to the 14th, so delaying the September 30th deliverable will be alright as I will only have a couple days to review it. Would it be possible to hear back from Wholesale in the next week or so about the feasibility and timelines? I am concerned that given the initial request was made in mid-July that Wholesale might not have capacity for the report this fall.

Thank you for all of your help and updates,

Mary

Hi Mary,

Unfortunately, that is not possible.

Retail and Wholesale are different divisions. As such, they are not connected in any way, and they do not work together when it comes to fulfilling orders. The best I can do is speak with Retail to inquire if it is possible to push back their deadline again. But as I mentioned, we may be cutting it close.

If you would like the data from Retail (despite of a current lack of response from Wholesale regarding feasibility), then I can send you the PC. Otherwise, we risk not being able to meet your deadline.

Kind regards,

Paola

Good morning Mary,

I hope you've been well. Thank you for your patience.

I would like to provide you with an update regarding your request. Both divisions have stated that data delivery by September 30th is potentially doable, contingent on the following two points:

- The Wholesale division is still waiting to confirm feasibility since there are quite a number of details that need to be worked out.
- The Retail division has stated that a September 30 timeline is only feasible if a Purchase Confirmation is signed by the Tuesday. I can inquire to see if it can be delayed further without compromising your timeline, but we might be cutting it close.

Please let me know how you would like to proceed.

Kind regards,

Paola

Hi Mary,

Thank you for your follow up.

Unfortunately, I am still waiting to hear back from one of the two divisions. I was hoping to provide you with quotes from both, but seeing as the other division may have a backlog of priorities due to summer holidays, below is the quote for one of your requests:

[Table: 20-10-0083-01: Annual retail trade survey, summary statistics](#)

The Annual Retail Trade Program could produce estimates at the Canada level for the years 2021 to 2023. Producing estimates for earlier years is not recommended, as older data may not model as reliably and could result in increased suppression, even with fewer variables.

General Approach:

Because the Annual Retail Trade Survey is a weighted survey, we cannot rely solely on reported data. Administrative (tax) data would need to be integrated to develop valid estimates.

Important Caveats:

- **2021 Data Limitations:** The 2021 data includes only **retail store** sales (excludes non-store retailers) due to changes in NAICS codes in 2022. The 2021 data tables are also archived. As a result, estimates for 2021 may

not be fully comparable with those for 2022 and 2023.

- **NAICS 2022 Update:** *The NAICS structural update may affect historical comparability. Data for 2021 and earlier follow **NAICS 2017**, while data from 2022 onward follow **NAICS 2022**. A rough concordance from the Monthly Retail Trade team is available, but there will be a break in historical continuity.*

- **Suppression Risk:** *Our team may refrain from releasing any data identified during analysis or confidentiality review if it is deemed inaccurate or inappropriate for release. This would most likely affect smaller industries but can only be determined during the detailed analysis phase.*

*That said, **the cost estimate would be \$7,476.75 plus tax.***

We currently have workforce capacity available between now, August 5th, and September, if the client decides to proceed. Later in the fall or winter, our workforce will not be able to produce the request due to other pressing projects.

The list of variables included in the custom tab would be the following:

1. Total operating revenue
2. Sales of goods for resale
3. Cost of goods sold
4. Opening inventory
5. Purchases
6. Closing inventory
7. Total labour remuneration
8. Total operating expenses
9. Gross margin (%)
10. Profit margin (%)

Again, it is important to note that this is only for one of the two tables you are requesting. Please let me know how you would like to proceed.

Thank you,

Paola

Subject: Re: Contact us form submission:
Alberta - Customized services

Good afternoon,

My organization is looking for a once off data request that could become an annual one pending later negotiations.

Table: 20-10-0083-01
Table: 20-10-0077-01

Geography: Canada

Time period: 3 most recent years available, open to 2016 onwards once per year data if quoted cost is not much higher

Variables (if cheaper to pull a limited number than all those available by default in the table):

- Total operating revenue
- Cost of Goods Sold
- Total operating expenses

Change requested from tables available freely online: Filter data to only include companies with a positive operating margin (operating revenue - COGS - operating expenses).

Data availability inquiry: is net income available in addition to the current fields available (which allow for net operating income to be derived)?

Please let me know what else I can define or clarify. I'm sure there are missing elements to articulate.

Cheers,

Mary
